

**PART 8B**  
**SCHEDULE OF DAYWORK RATES**

**SCHEDULE OF DAYWORK RATES**

For works that cannot be measured and valued by the Schedule of Rates set out in Part 8A & 8B, The successful tenderer (hereinafter referred to as "the Contractor") shall submit the request in writing based on the Schedule of Daywork rates set out in Tables A, B and C provided hereinbelow, subject to the approval of the Superintending Officer (S.O.).

**Section A - Labour**

Tenderers shall quote the Schedule of Rates for Labour in Table A including the following:-

- (a) The amount of wages actually paid to the employee when carrying out dayworks;
- (b) The amount of bonuses, incentive payments and other emoluments actually paid to the employees when carrying out dayworks; and
- (c) Overheads and profit as defined in Section D.

All items under daywork shall be executed during the normal working hours of 7.00 am to 7.00 pm Monday to Saturday.

At the request of the Contractor for dayworks items to be executed on Sundays or other time involving overtime payment, all overtime payment and other related charges shall be borne by the Contractor.

Notwithstanding the above, if in the opinion of the S.O. that dayworks items must be carried out beyond the normal working hours, payment for overtime shall be paid to the Contractor and calculated on the following basis. Such payments shall be substantiated by labour time sheet.

**Monday to Saturday (inclusive)**

7.00 pm to midnight at one and half (1½) times the rates inserted.

Midnight to 7.00 am at twice (2) times the rates inserted.

**Sunday and Public Holidays**

All hours at two (2) times the rates inserted.

**Section B - Material**

The rates for materials used in dayworks shall be based on the nett invoice amount (i.e. after deducting all discounts, materials delivered to site, plus the percentage entered by the Contractor in Table B for overheads and profit as defined in Section D).

**Section C - Plant**

The rates for plant inserted by the Contractor in Table C shall include the following:-

- (a) Use of mechanically operated plant for the time engaged upon daywork
- (b) Hire charges where applicable

**Section C - Plant (Cont'd)**

- (c) Fuel, grease and lubricating oil
- (d) Maintenance
- (e) Depreciation
- (f) Consumable stores
- (g) Spare parts
- (h) Insurance and road taxes where applicable
- (i) Overheads and profit as defined in Section D.

Rates for plant shall exclude the cost of wages which are computed separately in Table A.

Payment for mechanically operated plant will be made only for such time as the plant is engaged upon daywork operations and shall exclude all standing time.

**Section D - Overheads and Profit**

Overheads and profit shall be included in the rates quoted by the Tenderers in respect of labour, materials and plant in Tables A, B and C. The term "overheads" is defined below as including:-

- (a) Head office charges
- (b) Site supervision and site staff
- (c) All Government and statutory taxes and levies
- (d) Overtime other than that allowed for in Section A
- (e) Time lost due to inclement/adverse weather
- (f) Travelling time and expenses
- (g) Subsistence allowances
- (h) Safety, health and welfare facilities
- (i) Third party and Employer's liability insurances
- (j) All obligations on the part of the Contractor concerning Central Provident Fund Contributions and the construction levy
- (k) Holiday and sick pay
- (l) Tool allowances
- (m) Use, repair and sharpening of small tools
- (n) All non-mechanically operated plant, erected scaffolding, staging and trestles, artificial lighting, protection clothing, storage facilities and the like that may be in general use on the site
- (o) All other liabilities and obligations whatsoever.

**TABLE A - LABOUR**

<b>Description</b>	<b>Rate per Hour</b>
Labour (Skilled)	\$ _____
Labour (Non-skilled)	\$ _____
Mason	\$ _____
Pavior	\$ _____
Joiner	\$ _____
Metalworker	\$ _____
Plasterer	\$ _____
